

FOR IMMEDIATE RELEASE

Pacific Healthcare Opens 4th Integrated Specialist Centre

Singapore, Saturday, 19 January 2008 – Pacific Healthcare Holdings Ltd. (“Pacific Healthcare”), one of Singapore’s leading healthcare providers, today officially opened its fourth integrated specialist centre. Occupying the entire 7th level of Paragon’s Shopping Podium in Orchard Road, the new centre is an 8,000 sq ft, modern healthcare facility offering a wide range of medical, dental and diagnostic services, complementing Pacific Healthcare’s existing centres on the 12th, 19th and 20th levels of Paragon.

The key thrust of the centre is preventive medicine with the latest diagnostic equipment including a 3-Tesla magnetic resonance scanner (“3T MRI”) and a 64-slice computed tomography scanner (“CT”). The high resolution 3T MRI allows superior image quality and detail, and is especially useful in visualizing the brain, breast and liver. The 64-slice CT is suitable for non-invasive diagnosis of heart disease.

Pacific Healthcare Specialist Centre also houses specialists in the fields of obstetrics & gynaecology, implant and cosmetic dentistry and ENT (ear, nose and throat surgery). There is also a health screening and family medicine centre, as well as an allergy clinic and thyroid surgery centre. With this new addition, Pacific Healthcare now occupies more than 60,000 sq ft of space within the Orchard Road belt. More than half of Pacific Healthcare’s patients are foreigners, and a significant portion are medical tourists who fly in specifically to seek treatment from its team of top specialists.

About Pacific Healthcare Specialist Centre

The services offered at the new centre include:

Obstetrics & Gynaecology

Our Consultant Obstetrician & Gynaecologist offers a broad spectrum of women-focused preventive medical care including pre- & post-pregnancy screenings, diagnosis and treatment of cysts and fibroids, as well as anti-aging and aesthetic medicine.

Implant and Cosmetic Dentistry

Our dental clinic focuses on cosmetic & implant dentistry, one of Pacific Healthcare's core competence. The integrated structure within Pacific Healthcare enables patients desiring a winning smile to be cared for by a team of dental specialists and plastic surgeons.

General Medicine & Health Screening

Pacific Healthcare provides a wide range of health screening packages to suit the individual. Early detection of diseases through customized health assessments is the key to the prevention of major illnesses as timely intervention improves the prognosis of most medical conditions.

ENT, Allergy, Sinus and Thyroid Clinics

Our team of Ear, Nose, Throat (ENT) consultants offers diagnosis and treatment for ENT diseases, especially in the field of allergies, sinusitis and thyroid disorders.

Cardiology and 64-Slice CT Scans

The latest in diagnosis and treatment of heart disease is offered through our 51%

subsidiary Singapore Heart Stroke Cancer Centre.

Magnetic Resonance Imaging Centre

The 3T MRI Centre is operated by Radlink Diagnostic Imaging, our 30% associate company held through our joint venture with Kuwait Finance House Malaysia Berhad

About Pacific Healthcare Holdings Ltd.
