

Pacific Healthcare opens specialist centre in Shanghai Kanglian Hospital

- Located in heart of Shanghai's prime residential district
- Expansion in line with strategy to export scalable Singapore model overseas

Singapore, 22 October 2007 - Mainboard-listed Pacific Healthcare Holdings Ltd ("PHH" or 太平保健), a leading Singapore provider of integrated, multi-disciplinary specialist healthcare services, today opened the doors of its first specialist centre in Shanghai Kanglian Hospital through its subsidiary Singapore Heart, Stroke and Cancer Centre ("SHSCC"). Pacific has a 51% stake in SHSCC and an effective 10.5% stake in the Shanghai Kanglian Hospital.

Located in the heart of Shanghai's prime residential Changning District, SHSCC's diagnostic centre is located on the 1st floor of the 6,000 sq metre, five-storey hospital which also provides operating theatres, a dental clinic, a chemotherapy centre and 20 luxury in-patient suites.

Dr William Chong (张来良), CEO of PHH said: "In line with China's booming economy, the demand for quality healthcare from high net worth individuals and expatriates has increased and our centre in Shanghai is well-located and equipped to serve the needs of the fast rising affluent population."

"Utilising state-of-the-art medical facilities and the latest treatment protocols, the Singapore-managed hospital is positioning itself to deliver an international level of medical services to the residents in Shanghai," added Dr Chong.

SHSCC is a one-stop medical specialist centre renowned for depth of expertise in the areas of heart, stroke and cancer imaging. Its Shanghai facility will be modelled after its successful Singapore operations and will use the latest diagnostic equipment to provide patients with highly accurate and reliable screening services for the prevention, early detection and management of these 3 major causes of death globally.

Shanghai Kanglian Hospital also collaborates with other niche healthcare providers like the Memphis-based West Clinic, a renowned cancer centre which provides world-class medical treatment to cancer patients in the People's Republic of China by U.S. physicians and nurses.

PHH has, in recent months, stepped up its expansion overseas, particularly in China and India, the world's two fastest growing markets for private quality healthcare services. The Group last week opened its 8th women's wellness centre in Shenzhen through its 52.5% owned subsidiary Shen Zhen Marsa Pacific Chain Enterprise.

About Pacific Healthcare Holdings

Incorporated in 2001 in Singapore, Pacific Healthcare is an integrated healthcare provider offering a comprehensive range of healthcare services; encompassing specialist medical care, general practice medicine, dentistry, health screening, wellness services as well as the operation of nursing homes, day surgery centres and a psychiatric hospital. Its integrated network of healthcare services allows patients to be treated in a multi-disciplinary manner within the Group.

Pacific Healthcare aims to be the premier healthcare group in both Singapore and Asia, renowned for its Care, Compassion and Medical Excellence. Through a team of more than 100 dedicated medical professionals and a wide network of clinics and facilities, it focuses on the total health and well-being of patients. Its core competencies include the fields of cosmetic surgery and aesthetic medicine, obstetrics & gynaecology, cardiology and implant & aesthetic dentistry.

Pacific Healthcare has operations in Singapore, Hong Kong, India and China.
