

FOR IMMEDIATE RELEASE

PACIFIC HEALTHCARE LAUNCHES PACIFIC VEIN & ENDOVASCULAR CENTRE

- Pacific Vein & Endovascular Centre is a one stop centre for the treatment of any form of unsightly veins and vein related complications and non-invasive evaluation and diagnosis of Arterial diseases.
- Dr Cheng Shin Chuen joins the Group as the new Consultant Surgeon in Vascular and Endovascular Surgery.

Singapore, 3 February 2012 – Pacific Healthcare Holdings Ltd (“Pacific Healthcare” or the “Company”), an integrated regional healthcare provider offering a comprehensive range of specialist services in medical care and dentistry, is pleased to announce the opening of Pacific Vein & Endovascular Centre (“PVEC” or the “Centre”) specialising in the treatment of any form of unsightly veins and vein related complications and minimally invasive treatment of Arterial and Aneurysmal disease.

Dr William Chong, Acting Chief Executive Officer of Pacific Healthcare, said, “We are pleased to welcome Dr Cheng into our group, I am certain this partnership will bring the group closer to our mission of providing holistic medical care to all.”

Located at the 12th floor of Paragon, PVEC offers a wide range of services for all vein related medical disorders including Varicose Veins, Spider Veins and Leg Ulcers. Using Endovenous Treatment, varicose veins can be treated without surgery, scar, general anaesthesia or hospitalization.

Appointment of Dr Cheng Shin Chuen

Joining the Group as the new Consultant Surgeon in Vascular and Endovascular Surgery is Dr Cheng Shin Chuen, who read Medicine at the University of New South Wales, Australia. He graduated in 1998 and completed basic and advanced specialty training in General surgery in Singapore. Dr Cheng was a Senior Clinical Fellow in Vascular and Endovascular Surgery in Prince of Wales Hospital, Sydney in 2007. Prior to joining PVEC, Dr Cheng was the Head of

Vascular and Endovascular Services, Tan Tock Seng Hospital and Adjunct Assistant Professor, Yong Loo Lin School of Medicine, NUS.

Dr Cheng's subspecialty interests lies in all methods of minimally invasive/endovascular interventions in Venous, Aortic and Peripheral Arterial Diseases. Common procedures include Endovenous Ablation (either by laser or radiofrequency) of varicose veins, Peripheral Arterial Angioplasty and Aortic Stenting.

Dr Cheng said, "I am honoured to be able to join Pacific Healthcare, a healthcare provider renowned for its medical expertise and service excellence. I look forward to serving my patients with the highest standard of care together with my new colleagues at PVEC."

In addition to his current clinical practice, Dr Cheng has lectured and presented at several international symposiums in Taiwan, Seoul and Tokyo, on his specialty area of interest as well as authored a number of articles and abstracts in various peer-reviewed journals and other publications. He has also been invited overseas to supervise or proctor complex surgical procedures.
